

Breakthrough business consulting in nature

We are a small boutique business providing online courses for small businesses and business retreats followed by 12 months of 121 support to owners of SMEs.

Our founder, Grant Goss, has been starting, growing and selling his businesses for the last 30 years. These businesses started from a market stall on Camden Market London and grew to include a portfolio in finance, property, textiles, aviation, outsourcing companies to name a few. The businesses were scattered over 5 different countries. These years of experience along with a long journey of personal self development have culminated in the creation of Another View Retreats. We have helped owners of business including a wide variety sectors such as Law, Accounting, Branding, PR, Project management, IT, Architecture, Security, Web Design, Film production, Manufacturing, Construction, Sanitation, Foreign exchange brokers and various Charities to name just a few. We love the process of supporting SME owners to move along their personal and business journey.

“ This was the first time I have done something of this ilk so I did not know what to expect. Well, I was blown away by Grant’s knowledge, expertise and professionalism. I have come away with a clear business plan which I’m certain will enable me to meet my business objectives and corresponding personal goals. The two days have given me clarity on where I should focus/expand my efforts and the things I should stop doing as they are not adding enough value from the efforts exerted... I couldn’t be more excited! ”

“ Choosing to go on the off-site with Grant has turned out to be one of the best choices I’ve made for the business, taking time out in nature and looking over all aspects of the business with Grant’s guidance has left us with a clear view of what we need to do moving forward and provided us with key points to address and new areas in which to focus.

Grant’s wealth of knowledge and experience is apparent throughout and his positive attitude and support can be felt from the get-go. Saying that he has no problem asking the difficult questions that need to be asked for the business to move forward.

Grant’s plan, do, review mantra will play a huge role in how we operate the business and also my life my moving forward. I would recommend Grant to any business owner in a heartbeat. ”
